Six months, \$1.50

The Los Angeles Times says that one of the most disagreeable reflections about those Cuban insurgents who are now refusing to give up their arms is that the United States furnished them, free of cost, a considerable proportion of the arms which they hang onto so tenaciously.

Memorial day this year will have added significance in the fact that its exercises will be broadened to the extent of paying tribute to the memory of the heroes of another war.

Two thousand saloons have been started in Cuba since the war closed, yet some people are foolish enough to claim that the island is not becoming Americanized.

In the editorial announcement of change of ownership, the Herald says Dr. G. H. Keefe is one of the solid men of Phoenix. As the Doctor weighs 285 pounds; but few will question the statement.

The copper situation is practically unchanged. The price remains at 19 cents and stocks are quiet and dull. Manufacturers find the demand unchecked by the price and the immediate future seems promising.

According to the Williams News, the contract has been let by Lombard Goode & Co., of New York, to Contractor Richards for construction of the railroad from Williams to the Grand Canyon. The News has been uncessing in its efforts to bring this great opportunity to the attention of capital, and is entitled to much credit for services performed.

FOR AND ABOUT WOMEN.

Helen Leah Reed, author of Miss Theodora; a West End story, took a prize at Radcliffe for the best metrical translation from Horace.

Miss Lolla Stephenson, of Cincinnati, although only 18 years of age, is the youngest orchestral leader, not only in the United States, but probably in the whole world.

Mrs. Annie Kline Rickert, once a famous confederate spy, is now president of the Stockton & Tuolumne County railroad, a 60-mile track in California.

Thomas Edison is credited with remarking that "women have more sense about machinery than men." At any rate, he shows faith in the sex by keeping scores of them on his pay roll.

Glopper, Ireland, has appointed a woman rate collector, and insists on her having the place in spite of the objections of the Dublin officials. She is a Miss Magill, and had done the work of the office for five years owing to the illness of her father, who held the place previously.

Mrs. Alice Meynell does not desire to draw a mental line between men and women, as she considers any difference to be due to individuality and not to sex. She says that it is possible for women to excel in reasoning power, and for men to fail in it, also for women to be dull in perception and observation.

THE JEWELER'S FANCIES.

A very pretty watch for a lady has a miniature on the back. The center is set with pearls.

A very pretty cluster ring of a peculiar design is set with turquoises, surrounded by diamonds and emeralds. The latest design in smelling bottles has a body of enameled and a top of silver or gilt, with gems to match.

A patriotic match stand consists of three rifles set in the form of a tripod with a cup on the top. The initials "U. S." are engraved on the cup.

Various patriotic novelties in silver now are shown. A cigar bowl for the smoking set is in the shape of a cannon, with crossed Cuban and American flags in enamel.

The latest novelty in gentlemen's rings is a thick gold band studded all around with diamonds, rubies, emeralds and sapphires. The gems are large, and each turn of the ring shows a different stone.

A checkbook in the shape of a silver box is a novelty. The fields are enameled and the checkers are of red and white ivory. A small drawer in the box is used as a receptacle for the checkers.—Jeweler's Weekly.

BARGAIN COUNTER.

F. N. Wolcott has established a bargain counter at his store which is attracting much attention and judging from the number of sales made would appear that the people know a good thing when they are it. Just to show how amazingly cheap are goods sold we quote the price of jams or jellies, of California brands put up in tins or glass jars for \$1.50 per dozen. Also a large variety of fruits put up in fancy jars, pickles, sauces etc. at similar prices. Cigars at less than wholesale prices. Candies, pipes and notions, all at slaughtering prices. Go there, see for yourself and be convinced.

BISBEE JOTTINGS

BISBEE, May 28, 1899.
COPPERINGS.

R. Bach, New York; J. E. Kenney, Colo.; J. N. Ling, San Francisco, F. Gregory, Boston; Joe Levy, San Francisco and O. C. Taylor, Stella are registered at the Bessemer.

Naco, aside from its growing commercial importance, promises to become a social center in the near future. A large party of our leading society young people paid the little frontier pueblo a visit today.

J. E. Kenney, the Colorado wholesale butcher, who is in Bisbee for the purpose of looking over the field in regard to establishing a branch business here, seems to be quite favorably impressed with the outlook and may possibly determine to locate here.

Prof. Treadwell and Mr. Sheehan came in today from the Cobre Grande copper mine (Mitchell, Greene & Co.) Cananea, Mexico. They report that the smelter is in full operation, and that the out-pit promises to rival that of the large mines now being worked.

Mr. Wm. Short and wife of Nogales, are here for the purpose of procuring medical treatment for their little daughter who is afflicted with saint vites dance. They will leave for their ranch at La Morita as soon as their daughter's condition will permit them.

Mrs. Wm. Lutley and her little nephew were thrown from a buggy this afternoon but fortunately escaped with no more serious injuries than a severe shaking up and some minor cuts and bruises. The usual mischievous small boy—a personage too prevalent here at times—was the cause of the accident.

It looks as if the prophecy of the original locators of South Bisbee Company will see its fulfillment for reports come in lately that the shaft is full of copper stained ledge matter, and the indications are that the stratification of the mother lode is, as was first thought, from the mountain down. No drifting has been done as yet, the owners of the mine adhering to their first intention to sink the shaft to a depth of 700 feet before tunneling.

A musical was given by Mr. and Mrs. Dan Hankins at their residence on last Friday evening. The programme included several instrumental and vocal numbers, all of which were rendered in an artistic manner. They consisted of a violin duo by Mr. Henry Case and his son, Leslie; Mrs. Wm. Case, piano; Miss Brady and Mrs. Hankins, vocal solos. A Dutch supper followed. Among those present were Mr. and Mrs. Henry Case, Mrs. Wm. Case, Mr. and Mrs. I. C. E. Adams, Miss Sadie Brady, Mr. Lewis and Leslie Case.

BISBEE, May 30, 1899.
COPPERINGS.

Prof. G. A. Treadwell returned to Jerome this morning.

A survey is being made of the pipe line of the Bisbee Water Co.

Dr. Farrington gave a stag party to a select few of his friends last Saturday evening.

The Copper Queen Company have added blue and white striped awnings to their store windows.

J. H. Lockling, the Dragoon cattleman, is in the city visiting his daughter, Mrs. Jas. Kraigbaum.

Mrs. J. Campbell returned yesterday from a visit to her parents, Mr. and Mrs. Robt. McCormick at Tombstone.

Bert Warner left yesterday morning for Tucson to be in attendance at the commencement exercises at the territorial university.

It is reported that the Copper Queen company will close the mine for two or three weeks during the month of July to make repairs to various parts of the mine and smelter.

Eleven small boys were up before Judge Williams this morning charged with forcibly entering the cellar of the Waldorf restaurant and stealing therefrom cans of fruit and cigars. Nine of the eleven pleaded guilty to the charge, the remaining two pleading not guilty. His honor gave the youths a severe reprimand and set the time for sentence at 4 o'clock tomorrow. The youngsters had for the past three weeks been industriously cleaning out the cellar of the aforementioned restaurant of everything that was not nailed down. A large portion of the booty consisted of canned fruits, which was taken to an abandoned hut in a nearby canyon, and stored. The cigars secured by

LEVI STRAUSS & CO.

SAN FRANCISCO

the boys were hawked about among some of the local merchants and offered for sale. An investigation of the legality of the claim to the cigars disclosed the operations of the gang with the above result.

Decoration Day was appropriately observed in Bisbee. At one o'clock in the afternoon men, women and children began to congregate in the vicinity of Library Hall and by 2:30 the streets in that neighborhood were crowded by fully two thousand people. Promptly at 2:30 the line of march formed, headed by the Copper Queen band. Following the band in the line of march was the G. A. G. corps, the handful of veterans constituting the corps, marching with as firm a tread as the day they went forth onto the battlefields thirty-eight years ago. The next in the order of march was the local lodge I. O. R. M., followed by a Mexican Fraternal order and the rear was brought up by the school children, each child carrying a bouquet of flowers. Bands were broken on the plaza in front of the Copper Queen store. After a patriotic selection by the band the audience joined in singing "America." Addresses were made by several prominent citizens after which ranks were reformed and the procession proceeded to the cemetery where devotional ceremonies were held and the graves of the departed fittingly decorated.

DECORATION DAY.

Its Observance in Tombstone—Honors to the Dead.

Decoration day was reverently observed in Tombstone yesterday under the auspices of the G. A. R. The members of the order marched to the cemetery followed by a large concourse of citizens, making quite a line of march. The impressive G. A. R. services was had at the cemetery and honor and reverence shown for the heroes of the civil war. The beautiful custom of laying flowers upon the last resting places of loved ones gone before, brought forth a wealth of floral offerings as tender tributes to the soldier dead, while the graves of those near and dear, and whose memory is cherished by the living, were also profusely decorated by the same tokens of affection. The observance yesterday in paying honor to the dead heroes of the civil war, had added significance and meaning in that its ceremonies is broadened to the extent of paying tribute to the heroes of another war who also are sacrificing their lives on their country's altar. It is indeed fitting that the country's heroic dead are thus honored and all reverence shown to the boys of '61 whose sadly depleted ranks are being opened to make room for the boys of '98.

Postage to be Reduced to One Cent

The enormous increase in the number of letters carried in the U. S. mails makes it certain that the rate of postage must eventually be reduced to one cent an ounce. The President who succeeds in getting such a measure through Congress will hold a high place in the esteem of the people, but no higher than the esteem in which everybody holds Hostetter's Stomach Bitters. This medicine has an unequalled record in reducing the sickness of mankind. It gets at the starting point of disease by acting upon the stomach direct, helping that important organ in its duty of digesting food. It makes good appetites, always nervousness, stimulates the kidneys, and makes run-down man or woman feel like a new person. Try it.

Mr. H. Metsky, a government geological expert, and who was one of the government witnesses in the case against the Copper Queen Co., was a Tombstone visitor today. Mr. Metsky formerly lived in Tombstone in early days. He is here on mining business

THE BIG COMBINE.

Its Influence Strongly Felt in Arizona.

The beef trust has reached its paw into the territory and placed it heavily upon one of our principal industries. According to the Bulletin, Swift & Co. of Chicago, has been awarded the beef contract at the military posts in the department of the Colorado, which includes Arizona. Heretofore our local cattlemen have been allowed to furnish beef to the posts in Arizona and it has been a desirable market for beef. It is announced that refrigerated beef is to be furnished at all the posts. The question arises, how long will it be until Swift & Co. or some other arm of the beef combine will supplant the butchers of the territory?

STRAYED—From Barrett Camp, on or about March the 29th, one small bay horse mule; seven years old; branded on left thigh, brand very plain. Suitable reward for his return to Barrett Camp or any information leading to his recovery, address G. M. CUMMINGS, Pearce, Ariz. m-22.

Constable Del Lewis was over Saturday from Bisbee bringing a prisoner over with him for the county jail.

A LITTLE PECULIAR.

What is Done With Prisoners Where There is no Jail

"A peculiar territory, this," said the eastern visitor yesterday, "and I don't doubt that it would be a good field for Twain. Some parts are much as they are represented in the east, but the wild frontier mysteriously disappears as you suddenly drop into this valley. But I'll never forget some incidents I saw in the northern part of Arizona. There at Ash Fork, you call it, they don't seem to have a jail. The officer gets a prisoner and ties him to a chair in a saloon while he engages in a game of poker. The prisoner has an excellent chance to escape when the players get excited over a jack pot. They tell me that one of them got away a short time ago and was caught at Kingman. If the men don't pay much attention to a prisoner, they are good at catching them. And then there's Jerome. I don't know whether they have any officers there or not, but I do know that I saw some men strapped to a tree and they told me they were in jail."—Republican.

WANTED—To purchase a copper mine or a prospect, must stand rigid examination by expert; write full description, giving location, development, assays, smelter returns and cost of fuel, AJAX, 11 William St. New York.

ADVERTISED LETTERS.

The following is a list of letters remaining in the general delivery at the Tombstone postoffice for the month ending May 1, 1899:

Pedro Armenta C. Bascialupi
George Fisher George H. Fitts,
Wm Hall Jose Sibbas,
Baleio Valdiviez Louis B. Wild,
Mr. and Mrs. Frank J. Wand,
Miss Annie Hughes.

When calling for above letters, say advertised, giving date of advertisement.

LAURA G. CRAPLE, P. M.

Memorial day will be duly observed tomorrow. The G. A. R. will march to the cemetery at 3 p. m. where services will be held and the custom of decorating the graves of the departed will be carried into effect. The public is invited to be on hand and participate in the beautiful Memorial custom of paying a tribute of respect to the honored dead.

THE COTTAGE

MRS. C. LOUDON, PROP.

Fremont Street, Between Sixth and Seventh

Shady Grounds, Large, Clean and Well Ventilated Rooms.

TOMBSTONE, ARIZONA

F. E. Bralley returned to Safford last evening after a short visit here.

Jas. Rilly went to Tucson last evening on a professional visit.

Mrs. Wm. King arrived today from Bisbee, arriving on the noon coach.

Jos. McPherson returned to Washington Camp today to look after his freighting interests there.

District Attorney Land today received a new typewriter. It is a Denmore and is much admired.

L. M. R. neon, a mining man of Denver, is in the city. Mr. R. neon is here on mining business and will investigate several copper prospects in the Dragoon.

The change of time on the N. M. & A. went into effect yesterday. As a consequence the stage with eastern and western mail will arrive in Tombstone at 7 a. m. instead of 8 o'clock as heretofore.

A stranger with a bigger "jig" than he could conveniently carry, was piled into the city cooler today. When he sobers up enough to appear in court he will have to face a charge of disturbing the peace.

The San Jose House is having a new front put on the building. It is nearly completed and presents an attractive appearance.

J. M. Folks went to Ft. Huachuca today on a flying business visit. During his absence M. J. Brown is looking after the drug store.

The Pony saloon is being refitted and remodelled in the interior and made a most inviting resort into which to go for a "smile."

Ansel no Alvarez and D. McDonnell were each fined \$10 or 10 days on the chain gang, before Judge Schubert today, for disturbing the peace.

A postponement of sale of the delinquent stock of the Head Center Mfg. Co. has been made, according to notice as appears in another column.

Fringed bias ruffles of tulle,
Umbrella handles in cloisonne,
Golf capes of double-faced plaid rugs,
Fancy buttons imitating a miniature.

An eminent scientist recently said: "Cod-liver Oil is truly a wonderful composition. It is seemingly Nature's remedy in almost every wasting disease."

Scott's Emulsion contains the pure oil combined with hypophosphites, it rebuilds worn tissues, enriches the blood, invigorates the nerves, stops drains and wasting. Consumptives, Diabetics, pale or thin people, or nursing mothers, should remember this. Do not accept a substitute.

ARIZONA ANTIQUITY.

Probability that Unknown History May be Found Here

The Pasadena, Cal., Star on the subject of discoveries looks forward to light being thrown upon the history of Arizona, as follows:

"Late discoveries in Arizona raise the hope that some clue may yet be gained to the mystery of the cliff-dwellers. Mummies have been found sealed up in air tight chambers and wrapped in cloth that had considerable strength even after exposure to the air. That they possessed a considerable degree of civilization with its attendant arts is evident from their works, and that so skillful a people should have perished from the earth and left no history is remarkable. They were certainly of considerable numbers, built extensive works and lived in a manner so at variance with our ideas of comfort as to excite the liveliest curiosity. A stone writing, accidentally found, has unlocked the history of ancient Egypt, and it is not improbable that some similar Rosetta stone in the wilds of Arizona may yet supply the missing link in the history of America.

FOR MY LADY.

Several shades of one color are to be worn on evening dresses.

A curious novelty originating in Paris is a striped cloth gown with checked sleeves.

Velvet or cloth applique upon cloth are to be the idols of the coming season and it is rumored that flounces upon the skirts and capes are to go.

There are two shades recognized by authorities for coats. One will be three-quarter length with the blouse fitting tightly on the hips; the other will reach just three inches below the waist.

Jewels are to be more popular than ever this autumn. We are to have rings on our fingers and chains on our toes, in the greatest profusion, while pearls are to be essential to the winter costume. The enthusiasts will wear two rows of these fastened in front of their hair, with a Louis Seize bow of black ribbon velvet.

The really wise woman will supply herself at once with a black dress trimmed with many lines of silken braiding; the skirt of this might be crossed on the left hip and outlined with sealions down one side and on the edge of the shaped flounce. With a short coat this should have a scalloped basque and collar, and the shoulder pieces should be cut in one with small epaulettes.

THEATERS AND ACTORS.

Theatrical companies in Mexico must play everything they advertise or pay a fine.

Berlin is to have three opera organizations giving performances concurrently this season.

London is to have soon its first roof garden. Charles Wyndham will be the innovator, in his new theater near Leicester square.

Ignace Paderewski has completed the opera on which he has been at work for several years. It will be given in Dresden.

Mr. Edgar Pemberton has presented the manuscript of Tom Robinson's "Society" to the Shakespeare Memorial theater at Stratford-on-Avon.

Theaters in Spain have no programmes. A bill in the lobby sometimes gives the cast, but most of the actors remain unknown by name.
